

Dear Child and Adult Care Food Program participants:

As part of the Healthy, Hunger-Free Kids Act of 2010 the USDA Food and Nutrition Service is preparing to launch a nationwide research survey of the Child and Adult Care Food Program (CACFP) participants that serve children up to age five. The survey will be conducted by KRC Research, an independent survey research company. The purpose of the survey is to get input from State agencies, sponsoring organizations, child care centers, and family day care homes across the United States about nutrition, physical activity, and electronic media use in centers and homes. Please note that you may be randomly selected to participate in this survey. We encourage your participation as the results from the research will be used in the development of nutrition and wellness resources and technical assistance materials for CACFP providers.

Thank you.
